- f. All buildings and premises of a subscriber on his continuous property are considered to be in the same area.
- g. All buildings and premises on the continuous property of a common endeavor, such as an estate, amusement park, or airport, are considered to be in the same area as the owner or operator of the common endeavor. Each occupant of such building or premises may subscribe to his own service; however, this procedure is applicable to every occupant of such building or premises, whether or not a part of or concerned in the common endeavor.
- h. In developments, such as trailer parks, tourist camps, and housing projects, where the buildings, trailers, or other structures are occupied by persons who are not a part of a common endeavor, private streets, roads, and driveways in such developments are considered, under the provisions of the preceding paragraphs, to be public roads for the purpose of determining the road to which a building, trailer or other structure has an entrance. Each building, trailer and other structure is considered separately for the purposes of determining the area from which it will be served.

2. Intercompany Procedures

Beginning on April 8, 1989, the following procedures will be used with respect to establishing intercompany boundaries of exchange areas. (C)

- a. Intercompany exchange boundaries will be administered according to the geographical location of the customer's principal premises except in the following cases.

- (1) All units of a multi-unit building, such as a two family house, an apartment house, or an industrial building, are considered to be in the same area.

Each occupant may subscribe to his own service; however, this procedure is applicable to every occupant of such buildings or premises, whether or not a part of or concerned in the common endeavor.

A2.3.2 Flat, Measured And Message Rate Service

- A. When Flat, Standard Measured, Low-Use Measured, Message rate or Area Calling Service types of service are offered in an area, an applicant may, at his option, select either type of service or combination of services for the applicant's private residence location.

An applicant at a business location may select either flat, measured or message rate service when they are available in the exchange. However, a combination of these different types of services will not be furnished to the same subscriber at the same business location. Different applicants at the same business location, even in the same office, may each subscribe to a different type of service as long as each applicant has a different account and the applicants do not share a communication or other key-type system. The exceptions to the mixing restrictions for business locations are listed following:

- 1. To hotel and hospital premises where Flat Rate Service may be provided for the exclusive use of hotel or hospital management, in addition to the Area Calling Service, Measured or Message Service ordinarily provided in guests' or patients' rooms and lobbies, or Flat Rate Service may be provided in guests' or patients' rooms in addition to Flat Rate Service for management use in hotels and hospitals. This exception does not permit the combining of Area Calling Service, Measured and Message Rate Trunks. Guests or patients may contract separately for one of the services that may otherwise be available to them.
- 2. To premises where pay telephones may properly be located.
- 3. To premises where Back-Up Line service may properly be located with flat rate primary line service.
- 4. To premises where Flat Rate Service is used for voice transmission and usage rate service is used for transmission of medical information only, for emergency purposes only, for answering machines only, for fax machines only, or for computer data communications only, and the usage lines are not part of the primary voice system at that location. It shall also apply for premises where usage service is used for voice transmission and flat rate service is used for the same purposes stated above.
- 5. To premises where toll terminals are located.

Where new or additional service is to be established at a location that has a hazardous electrical environment (e.g., an electric power substation or generating plant or a high voltage transmission tower, switching or distribution location), the customer must have high voltage isolation equipment installed at such premises whenever hazardous voltages of 1000V peak-asymmetrical or greater exist prior to the installation of BellSouth ordered service. If the customer is aware that its premises are located where such hazardous voltages exist, the customer must notify BellSouth of this fact at the time its order for service is placed. Where the customer has elected to select, install, use and maintain its own high voltage protection equipment, the customer does so with the understanding that it is solely responsible for any interruption of BellSouth's service associated with its selection, installation, use or maintenance of the high voltage protection. Furthermore, the customer, its employees, agents, officers, directors, affiliates, successors and assigns agree to indemnify and hold BellSouth, its subsidiaries, affiliates and their collective employees, agents, officers, and directors harmless from all loss, liabilities, costs and expenses, including attorneys' fees and all costs of defense and settlement, resulting from interruption of service (damage) to property, claims, demands, suits or actions of any nature whatsoever arising from the failure of the high voltage protection selected, installed, used or maintained by the customer. The interest will be applied as a credit to the customer's bill or will be paid to the customer on an annual basis. If the deposit is refunded or credited to the customer's bill prior to the deposit anniversary date, interest will be paid or credited to the customer's bill on a pro-rated basis. If interest is not credited to the customer's bill or paid to the customer annually, interest will be computed by a method which will result in an amount no less than that obtained by using a middle course method between simple and compound interest in compliance with Commission Order dated October 31, 1989 in Case No. 89-057. Interest on deposits computed in this manner will accrue until credited to the customer's bill or paid to the customer.* (C)
- C. The fact that a deposit has been made in no way relieves the applicant or subscriber from complying with the Company's regulations as to advance payments and the prompt payment of bills on presentations or constitutes a waiver or modification of the regular practices of the Company providing for the discontinuance of service for nonpayment of any sums due the Company.

A2. GENERAL REGULATIONS

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.3 Payment For Service

- A. The subscriber is responsible for payment of all appropriate charges for telephone services, including completed calls and equipment. The subscriber will receive a monthly bill for telephone services provided by the Company. The bill will include the subscriber's telephone number, the due date of the bill, the amount due, the period of time covered by the bill, and itemized local and toll charges as appropriate. Similar billing information will be provided on separate sheets for the subscriber's preferred long distance carrier and other carriers as appropriate. All charges due by the subscriber are payable at the Company's Business Office or at any agency duly authorized to receive such payments. If objection in writing is not received by the Company within thirty days after the bill is rendered the account shall be deemed correct and binding upon the subscriber. Nonpayment of charges for service may result in the interruption or discontinuance of any or all of the services furnished the subscriber.
- B. Except as otherwise stated in the tariff, the subscriber shall pay monthly in advance or on demand all charges for service and equipment and shall pay on demand all charges for long distance service and billed local usage.¹ The subscriber is responsible for payment of all charges for services furnished the subscriber, including charges for services originated or charges accepted at the subscriber's station. Service shall not be disconnected for nonpayment of charges unless the Company has given the affected subscriber a written notice of the proposed date of disconnection at least five(5) days before the proposed date of disconnection. No service shall be terminated until at least twenty(20) days after the date of the original unpaid bill.
- C. Should service be suspended for nonpayment of charges, it will be restored only in accordance with payment of a charge for restoration in Section A4. of this Tariff. When the period of suspension is more than one day, credit will be given from the date of suspension up to and including the date service is restored.
- D. When the service has been disconnected for nonpayment, the service agreement is considered to have been terminated. Reestablishment of service may be made only upon the execution of a new service agreement which is subject to the provisions of this Tariff.
- E. In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for nonpayment of charges, *or otherwise discontinued, terminated or interrupted*, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for nonpayment of any such or other charges due and unpaid or for the violation of the provisions of this Tariff; nor shall the failure to suspend or disconnect service for nonpayment of any past due account or accounts operate as a waiver or estoppel to suspend or disconnect service for nonpayment of such account or of any other past due account. (C)
- F. The Company will apply an administrative charge to the subscriber's account for each separate occasion upon which a check, draft or other payment instrument is not accepted by the subscriber's financial institution on which it is written.

- G. Customers who have deferred payment agreements for services provided by the Company will be allowed to spread the Service Charges, as specified in Section A4. of this Tariff, plus interest over the respective period of the agreement. Interest on deferred amounts will be calculated at the Company's incremental cost of capital. That interest rate is 13 percent. This interest rate will be revised periodically by the Company upon approval of the Commission. If, in the judgment of the Company, the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of a lawful interest rate. Notice will be made to the Commission before suspension of the deferred payment option. Suspension of the deferred payment option will not affect customers who have executed a deferred payment agreement prior to the effective date of such suspension. The deferred charges (including calculated interest) will be prorated on a monthly basis over the selected deferral period length.

Note 1: Basic monthly charges are billed in advance. Toll charges for long distance services and additional charges for local usage are billed in arrears.

A2.4.8 Variable Term Payment Plan

A. General

1. The Variable Term Payment Plan (VTPP) is a payment plan which allows customers to pay a fixed rate for service over one of several optional payment periods. A different monthly rate applies for the duration of each period. The monthly rate varies inversely with the length of the payment period e.g., the monthly rate for a short period is greater than that for a long period.
2. The only payment period for software (versions) is the one-month period, except where other terms are specified in service tariffs.
3. The minimum period is one month, unless otherwise specified in service tariffs.
4. During the effective term of a customer-selected optional payment period, the monthly rate is not subject to Company-initiated change for payment periods longer than one month.
5. Unless specifically exempted, services furnished under the Variable Term Payment Plan are subject to all general regulations applicable to the provision of service by the Company as stated elsewhere in this Tariff.

B. Definitions

ADDITION

Provision of supplementary equipment to a customer's installed system up to the capacity of the system; addition of equipment not classified as an upgrade.

CONVERSION

Removal of a customer's installed system and replacement with a different system, under terms specified in service tariffs.

DOWNGRADE

Tariff-enumerated changes to an installed system generally resulting in a decrease in capacity, capability and/or a lower monthly charge.

EXTENSION

A tariff enumerated period of time over which the customer agrees to pay a specified rate for a service upgrade.

LICENSE FEE

A monthly recurring charge, the payment of which gives a customer license to use an identified software service.

MINOR EQUIPMENT MODIFICATIONS

Alterations to an item or items of service installed, as specified in service tariffs.

B. Definitions (Cont'd)

REARRANGEMENT AND CHANGE OF SERVICE

Relocation of installed cables, wires or other equipment, or substitution with new facilities or equipment made at the customer's request.

RELEASE

The modified software that is provided for installation on an existing system at Company initiative to correct a deficiency.

REMOVAL

Deletion of equipment or service from a customer's installed system.

UPGRADE

A tariff-enumerated enhancement to an installed system by a major addition or substitution, generally resulting in a higher monthly charge.

VERSION

A separate software program or group of programs that is referenced by a distinguishing code (numeric, alphabetic or alphanumeric). The version may be industry- or customer- specific in application, or it may provide functional enhancements to previously released software versions.

C. Application Of Rates And Charges

1. The monthly rate applicable at the time a customer subscribes to a service under the Variable Term Payment Plan is not subject to Company-initiated change during any optional payment period longer than one month.
2. Installation, service establishment, Service *Charges* and any other nonrecurring charges are to be paid in full at the time of installation. (T)
3. Move charges will apply for customer-requested relocation of an installed service from one premises to another or within the same premises.
4. In the event that all or any part of the service is disconnected at customer request prior to expiration of any selected payment period of greater than one month's duration, the customer will be required to pay a termination charge as stated in the service tariffs. The Tariff provisions concerning termination liability shall be inapplicable to any state, county or municipal governmental entity when there is in effect, as a result of action by such entity and through a duly constituted legislative, administrative, or executive body:
 - a. a statute;
 - b. an ordinance;
 - c. a policy directive; or
 - d. a constitutional provision

which restricts or prohibits an additional contractual payment for early termination of a contract by any such entity, or agency thereof, due to an unavailability of funding. When service is being provided and funding to the governmental entity for such service becomes unavailable, the governmental entity may cancel the service without additional payment obligation. Provided, however, that if the governmental entity cancels the service for any reason other than the unavailability of funds, the termination liability provisions in the Tariff shall apply.

C. Application Of Rates And Charges (Cont'd)

5. A *Secondary* Service Charge will not apply when a customer, upon expiration of his selected payment plan, reverts at the instance of the Company to current tariffed rates for the month to month option. A *Secondary* Service Charge will apply when a customer, prior to or at the expiration of his selected payment period, resubscribes to a tariffed payment plan or reverts at his request to the month to month option.¹ (T)
6. Recurring rates and installation, termination, service establishment, Service *Charges*, and other nonrecurring charges apply according to the appropriate schedules for products and services offered under the Variable Term Payment Plan, and filed elsewhere in this Tariff.¹ (T)

D. Maintenance

1. Hardware Equipment
Maintenance will be provided by the Company without additional charge for the entire term selected by the customer.
2. Software
Standard maintenance will be provided by the Company without additional charge, contingent on the terms and conditions specified in the service tariffs.

E. Additions To Existing Systems

1. Additions can be made to an existing system at the customer's option, and the payment of rates and charges in the currently effective tariffs for such service will be applied.
2. At the customer's option, unless otherwise specified in the service tariff, additions may be paid for over the remainder of the existing system's payment period, and be added onto the existing agreement, providing at least 30 days remain in the customer's existing payment period. The addition and installed system payment periods will then have a common expiration date. The charge(s) for the addition(s) will be the current filed rate(s) for the equipment for the same payment period as the installed system's existing payment period. If the installed system's payment period is not in the current tariff, the rate charged for the addition will be that of the next shorter filed payment period.

If less than 30 days remain in the current payment period, additions may only be placed on the one-month payment period at the current rates in effect for the one-month period.

3. For service added subsequently the customer may also select, from those currently available in the Tariff, a different payment period of equal or shorter length than the time remaining in the period selected for the existing installed service at the current filed rates for the selected period. The additions may then have a different expiration date than the existing installed service.

When the addition and the existing installed service's expiration dates differ, the customer must select a new payment period for the addition (at the time of its expiration) according to the terms and conditions stated in 2. preceding or in this Section. (T)

4. Coterminous additions to upgraded service will be charged at the current rates for the payment period equal to the installed service's existing payment period, excluding any extension period. The charges will be applicable for the remainder of the existing payment period, including any extension period.

Additions to upgraded services may also be ordered for payment periods shorter than or equal to the payment period existing prior to the addition at the current rates for the selected period.

5. Termination charges for premature disconnection of the added service will apply for service agreements longer than one month.

Note 1: These changes are the result of the restructure of Section A4. and are to be implemented November 9, 1995. (N)

F. Upgrades

1. Allowable upgrades to services offered by the Company are specified in the individual tariffs currently in effect for offerings under the Variable Term Payment Plan.
2. A customer who elects to upgrade an installed service during the service's existing payment period will have that payment period extended by an amount of time related to the particular upgrade as specified in the service tariff. The upgraded service will then have a new expiration date.
3. Additions made at the time a service is upgraded may, at the customer's request be paid over the existing (including extension) payment period unless otherwise specified in service tariffs.

The rates for added service will be those for a time period equivalent to that of the payment period prior to the upgrade. If the payment period for the customer's current payment period has been discontinued in the Tariff at the time of the upgrade, the new service will be billed at rates applicable for the next shorter payment period in the current Tariff. The total rates charged for the upgraded service over the extended payment period will be the current tariffed rates for any new service plus the rates already being billed for service installed before the upgrade and continuing in service.

4. When new service is not added to the existing (excluding extension) payment period, the customer must choose a currently available payment period of equal or shorter length than the time remaining in the current (excluding extension) payment period. Current rates would apply for the selected payment period for the new service, and rates already being billed prior to the upgrade would be charged for service previously installed and continuing in service. The new service may then have a different expiration date than the installed service.

When the new service and the existing service's expiration dates differ, the customer must select a new payment period for the service added (at the time of expiration) in upgrading the system according to the terms and conditions stated in 3. preceding or in this Section. (T)

5. A customer on the one-month payment period may elect to upgrade; however, the payment period will not be extended.
6. The new service is exempt from Company-initiated rate changes for all payment periods longer than one month.
7. Termination charges will apply to service disconnected prior to expiration for all payment periods longer than one month.
8. Installation, Service ***Charges***, service establishment and other nonrecurring charges, as specified in the service tariffs, will apply to any new service. (T)

G. Conversions

1. Conversions to installed services are specified in service tariffs currently in effect for offerings under the Variable Term Payment Plan.
2. The service agreement for a currently installed service terminates when conversion occurs.

3. The customer must select a currently available payment period for the new service. The current rates for the chosen period would apply to any new service as well as to any remaining service from that previously installed.
4. Termination charges will apply to all service removed prior to expiration of the selected payment period. Termination charges will not apply to any service remaining at the customer's premises for use with the new service provided the customer selects a new payment period equal to or longer than the time remaining under the former payment period.
5. Installation, service establishment, Service **Charges**, and other nonrecurring charges, as specified in service tariffs, will apply for the newly installed service. Nonrecurring charges will not apply to service remaining at the customer's premises. (T)

H. Removals

1. Removal of service for which the current payment is longer than one month will not affect the expiration date of the remaining service.
 - a. Removal of service that is unique or identifiable by a code will be recognized through application of a termination charge for that specific unit.
 - b. Removal of service that is not unique or identifiable by a code, where two or more units of the same type of service are provided to the customer's premises, will be recognized through the following provisions:
 - (1) The specific service(s) no longer desired by the customer will be removed.
 - (2) The lowest termination charge for the type of service removed will apply.

I. Downgrades

1. Allowable downgrades for installed services are specified in service tariffs.
2. A customer has the option to place any new service on a coterminous payment period at the time of the downgrade, unless otherwise specified in the service tariff. Rates for the new service are those currently in effect for the original payment period (or, if the period is no longer available, for the next shorter one). The rates for service remaining at the customer's premises after the downgrade will not be affected.
3. When a coterminous payment period is not chosen, the customer must select a payment period of equal or shorter length than the time remaining in the current payment period. Current rates apply for the equal or shorter payment period. Service remaining to the customer's premises will continue being billed at the rates in effect prior to the downgrade. The new service may then have a different expiration date from the service which remained after downgrading.

When the expiration dates differ, the customer must select a new payment period for the service (at the time of expiration) added at the time when service was downgraded according to the terms and conditions in A2.4.8.I.2. preceding of this section.
4. Termination charges do not apply for existing service which becomes part of the downgraded service. Termination charges do apply for service removed in downgrading.
5. Installation, Service **Charges**, service establishment, and other nonrecurring charges will apply to any new service which must be added new to existing service being downgraded, as enumerated in service tariffs. (T)

L. Moves And Rearrangements Of Service (Cont'd)

1. Moves of Service (Lapse-in-Service) (Cont'd)

b. Between Exchanges of South Central Bell in Kentucky and Bell Operating Companies in other States

Customer requests for lapse-in-service moves between exchanges of a Company in different states or between exchanges of two Bell Operating Companies in the same or different states will be provided under the same conditions as described preceding in a., except as follows:

- (1) Billing for the original location will apply through the date service is disconnected. Billing for the new location will be effective on the next day.

The rates in the new location will be those in effect for new customers. Rate stability against Company-initiated changes shall be provided at the new rates for the remainder of the customer's payment period.

The first bill rendered after service is re-established will contain advance billing and, if applicable, retroactive billing from the date of disconnect. Progression of the payment periods will be unaffected.

- (2) Tariffs for the same service and payment periods must exist in both states or Companies at the time of the move. If tariffs exist for the same service, but the lengths of the periods available are different, the customer must select a payment period available in the new state or Company. The new period must be of an equal or longer length than the time remaining in the current selected period, subject to the conditions covered in N., "Requests for Changes in Length of Optional Payment Periods", following.

2. Moves of Service (In-Service)

An in-service move under the plan will be considered a termination of service with applicable termination charges. The customer will be required to select a currently available payment period, including applicable one-time charges.

3. Rearrangement and Change of Service

Relocation of installed cables, wires, or equipment will follow interjurisdictional or intrajurisdictional move provisions as appropriate. Substitution of installed cables, wires or other equipment will follow the minor equipment modifications, additions, removals, upgrades, downgrades or conversion policies as appropriate, depending on the type of substitution requested.

4. Minor Service Modifications

Minor service modifications are identified in service-specific tariffs. The length of the customer's existing payment period is unaffected by these modifications. Ordinarily, minor service modifications do not affect the customer's monthly bill. A Service **Charge** and installation or other non-recurring charge will apply to each minor service modification.

M. Change of Tariff Jurisdiction

Under certain conditions involving changes in service, a Variable Term Payment Plan customer's service will require change of tariff jurisdiction from intrastate to interstate tariffs or vice-versa, even though the service location may not be changed.

M. Change of Tariff Jurisdiction (Cont'd)

The following provisions may apply to changes of tariff jurisdiction when the service location is not changed. However, the concepts may be used for reclassification of services at the time of a move.

1. Billing for the original jurisdiction will apply through the date of jurisdiction change. Billing for the new jurisdiction will begin on the next day.

The rates applicable for the new jurisdiction will be those in effect for new customers. Customers changing service to the jurisdiction (South Central Bell in Kentucky) will have stability against Company-initiated changes in rate levels for the remainder of the payment period.

2. Nonrecurring charges will not apply, either for the services subscribed to under the Variable Term Payment Plan or for connecting services, unless they are being installed at the time the change in tariff jurisdiction of existing services. Service Charges will apply if stipulated by the Tariff in the new jurisdiction. (T)
3. Tariffs for the same service and Variable Term Payment Plan periods must exist in both jurisdictions at the time of the change. If tariffs exist for the same service but the lengths of the payment periods in the new jurisdiction are different, the customer must select a new payment plan period with a length equal to or longer than the remaining time in the existing payment period, subject to the conditions covered in N., "Requests for Changes in Length of Optional Payment Periods", following. (T)

N. Requests for Changes in Length of Optional Payment Period

Subsequent to the establishment of service for an item furnished under a Variable Term Payment Plan period and prior to the completion of that period, the existing payment period may be replaced by a currently offered payment period at the current rates, subject to the following conditions:

1. No credit will be given for payments made during the formerly selected period. However, nonrecurring charges will not be reapplied.
2. The new payment period begins with the date requested.
3. No termination charge applies for the former payment period provided the customer selects a new payment period equal to or longer than the time remaining under the system's/item's former payment period. Otherwise, a termination charge applies for the former payment period.
4. A Service Charge will not apply. (T)
5. The new payment period, selected by the customer for a new item of service must be shorter than the time remaining in the service's existing payment period.

O. Renewal Options

The customer has the following renewal options:

1. Prior to completion of the current payment period, any period available under the VTPP may be selected at the rates in effect for new customers at the time of the renewal. The customer will be charged the current rate for the newly selected payment period, commencing the day following completion of the payment period.

If the customer has no additional service commitment and, upon termination, the service will not be subject to any termination charge. The one-month service will be subject to Company-initiated rate adjustments when approved by the appropriate regulatory authority.

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plan For Contract Services

A. General

1. The regulations specified herein are applicable to specific services as indicated in each service's respective section of this Tariff. (M)
2. Services furnished under the Payment Plan for Contract Services (PPCS) are subject to all general regulations applicable to the provision of service by the Company as stated elsewhere in this Tariff except as noted herein. (M)
3. The PPCS is a payment plan which allows customers to pay fixed or variable rates for services provided over variable contractual payment periods. A specific monthly rate applies for the duration of each period. (M)
Payment periods for services provided under a PPCS will be described in the services' specific tariff section. The following is an example of payment periods offered. (M)
 - a. Payment Plan A - payment periods may be selected from 24 months to 48 months in length. (M)
 - b. Payment Plan B - payment periods may be selected from 49 months to 72 months in length. (M)
 - c. Payment Plan C - payment periods may be selected from 73 months to 96 months in length. (M)
4. When the customer extends service beyond the longest service period offered, then rates for the longest available service period will apply. (M)
5. When the customer orders service to be provided under a PPCS arrangement, the customer must designate to the Company the payment plan and the service period desired, e.g. Payment Plan B and sixty months. (M)

B. Application of Rates and Charges

1. Rates stabilized under a PPCS arrangement are exempt from Company-initiated increases, however, decreases for any rate element will automatically flow through to the customer. Effective with this Tariff, customers under a PPCS arrangement will be billed the lower of their existing PPCS rates or the current PPCS rates for their service arrangement. (M)
2. When customers renew or change the length of their payment period, the rates applicable for the new period are those currently in effect at the time of the renewal or change in the length of the payment period. A service order charge will not be applicable for such renewals or changes. (M)

A2. GENERAL REGULATIONS

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plan For Contract Services (Cont'd)

B. Application of Rates and Charges (Cont'd)

3. Recurring rates and installation, termination, service establishment, Service Connection and other nonrecurring charges apply according to the appropriate schedules for services offered as associated items to Contracted Services, and are filed elsewhere in this Tariff. (N)
4. Customer requests for inside moves of service will not affect the contract period. (N)
5. A change in jurisdiction will not constitute a disconnect of service provided the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period, whichever is greater, and provided the new PPCS arrangement is for the same customer at the same location for the same capacity service. (N)

C. Termination Liability Charge

1. In the event that all or any part of a service is disconnected at a customer's request prior to expiration of any selected payment period of greater than one month's duration, the customer will be required to pay a termination charge as stated in that service's section of this Tariff. (N)

D. Additions

1. Additions of services or rate elements, e.g. ports, new local channels, interoffice channels, etc., must be under a new PPCS arrangement at rates and charges as specified in B. preceding. (N)
2. Termination charges for premature disconnection of added contractual services will apply as set forth under Disconnects as stated in E. following. (N)

E. Disconnects

1. When a service or rate element, included under a PPCS arrangement, is disconnected prior to expiration of the selected service period, Termination Liability Charges apply as set forth in the rate regulations in this Tariff for such service. Remaining services or rate elements will not be affected by such disconnections. (N)
2. When a tariffed service under a PPCS arrangement is disconnected prior to the expiration of a selected service period as a result of a change of Tariff jurisdiction Termination Liability Charges will not apply when: (N)
 - the completed service period is twelve months, or twenty-five percent of the length of the originally selected PPCS service period, whichever is greater, and (N)
 - the service orders to install the new service and disconnect the old service are related together and there is no lapse in service between installation of the new service and disconnection of the existing service, and (N)
 - the service orders are for the same customer at the same location. (N)

F. Moves of Equipment

1. The appropriate nonrecurring charges for inside moves for items associated with contract services as specified in this and other Tariffs are applicable. This type movement will not affect the contract period. (N)
2. Customer requests for moves of service(s) under PPCS, other than inside moves, will be subject to the conditions stated in M. following. (N)

G. Requests for Changes in Length of Optional Payment Period

1. Subsequent to the establishment of a contract with a PPCS period, and prior to the completion of that period, the existing payment period may be replaced by: (N)
 - a. A currently offered payment period at the current rates, with a length equal to or longer than the time remaining in the existing service agreement, subject to the following conditions: (N)
 - (1) No credit will be given for payments made during the formerly selected period. (N)
 - (2) The new payment period begins with the new PPCS effective date. (N)
 - (3) No termination charge applies for the remaining portion of the former payment period. (N)
 - (4) Nonrecurring charges will not be reapplied. (N)
 - (5) A service charge will not apply. (N)

G. Requests for Changes in Length of Optional Payment Period (Cont'd)

1. Subsequent to the establishment of a contract with a PPCS period, and prior to the completion of that period, the existing payment period may be replaced by: (Cont'd)
 - b. A currently offered payment period at the current rates, with a length shorter than the time remaining in the existing service agreement, subject to the following conditions:
 - (1) No credit will be given for payments made during the formerly selected period.
 - (2) The new payment period begins with the new PPCS effective date.
 - (3) A termination charge applies for the remaining portion of former payment period.
 - (4) Nonrecurring charges will not be reapplied.
 - (5) A service charge will not apply.

H. Renewal Options

1. The customer has the following renewal options:
 - a. Prior to completion of the current payment period, any period available under the PPCS may be selected at the rates in effect for new customers at the time of the renewal. The customer will be charged the current rate for the newly selected payment period, commencing the day following completion of the prior payment period.
 - b. Service may be continued on a month-to-month basis at the current rate for the one-month payment period, unless otherwise specified in this Tariff. The customer has no additional service commitment and, consequently, when service is terminated will not be subject to any termination charge. The one month service will be subject to Company-initiated rate adjustments when approved by the appropriate regulatory authority.
 - c. If the customer does not elect an additional payment period or does not request discontinuance of service, service will be continued at the monthly rate currently in effect for the month-to-month payment rate, under the terms specified in b. preceding.
 - d. Upon expiration, Letters of Election executed on or after May 1, 2005, shall automatically renew for an additional one-year term under the same rates, terms and conditions in effect under the original Letter of Election, unless the Subscriber or the company provides written notice of its intent not to renew the Letter of Election at least sixty (60) days prior to the expiration of the initial term or any subsequent additional one-year term. (N)
2. Service connection charges are not applicable for services renewed under the PPCS. Any new rate elements added at the time of renewal will be subject to all appropriate service connection charges and other nonrecurring charges.
3. The Company may discontinue or change any or all renewal options with approval of the appropriate regulatory authority.
4. When a customer renews a PPCS arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
5. Recognition of previous service will be given to customers who renew an existing PPCS arrangement, for all associated rate elements at the same location(s), provided that the length of the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period of the original PPCS arrangement, whichever is greater.
6. Recognition of previous service will be given to month-to-month customers with a service date of January 1, 1994 or later who convert to a PPCS arrangement, provided the minimum service period has been met. For customers whose service date is January 1, 1994 or earlier, recognition will be given for the previous service back to January 1, 1994. For customers whose service date is later than January 1, 1994, recognition for the previous service will be given back to the actual service date.
7. To determine the appropriate PPCS for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of the months of the proposed service period of the PPCS arrangement. For example, a PPCS arrangement for a thirty-six month service period under Payment Plan A is renewed for twenty-four months with no changes at the end of the thirty-six month period. The sum of months for the completed and proposed service periods would equal sixty months and would be billed under Payment Plan B. Another example is a Month-to-Month customer, in service for fifteen months, who wishes to convert to a sixty-month PPCS arrangement with no changes. The combined service period of the Month-to-Month arrangement and the PPCS arrangement is equal to seventy-five months, which would be billed under Payment Plan C.

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plan For Contract Services (Cont'd)

I. Transfer of Service

1. Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer as specified in this Tariff. This does not constitute a disconnect of service or a discontinuance of an existing PPCS arrangement. The new customer will be subject to all provisions and equipment configurations currently in effect for the previous customer. Regulations concerning transfer of service between subscribers as stated in other sections of this Tariff also apply under PPCS.

J. Deferred Payment

1. Payment of nonrecurring charges for services with contract payment plans which have been approved for deferred payments may be deferred over the length of the customer's payment period or a shorter period (in annual increments) subject to the conditions specified in the Tariff for the contracted service as well as the conditions following:
 - a. The charges to be deferred must be either the Installation, Service Establishment and/or other nonrecurring charges (including the applicable interest).
 - b. The payment period must be longer than one month.
 - c. The minimum amount deferrable shall be the minimum amount set forth in the specific tariff for the contracted service.
 - d. Interest on deferred amounts will be calculated at the rate set forth in the deferred payment agreement concurred in by both the customer and the Company. The interest rate shall be reviewed periodically by the Company. If the Company determines that the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of an allowed interest rate specified by law. Suspension of the deferred payment option will not affect customers with existing deferred payment agreements that were made prior to the effective date of such suspension.
 - e. The deferred charges (including interest) will be prorated on a monthly basis over the length of the selected deferral period.
 - f. All deferred charges must be paid in full when the customer:
 - (1) Disconnects service, for the system or service prior to expiration of the deferral period.
 - (2) Fails to pay a monthly amount within thirty days of its due date.
 - g. The customer may prepay only the total outstanding deferred charges at any time during the selected deferral period. The customer will be given a credit for the amount of unearned interest. The customer may not prepay less than the total of the outstanding deferred charges.

K. Prepayment

The customer may prepay the total outstanding recurring monthly rates for contracted services, approved for prepayment, for payment periods greater than one month. The prepayment of monthly rates in no way constitutes a purchase and the Company retains full ownership of all services covered by the prepayment. The following conditions apply:

1. Customers who prepay six months or more will have an allowance applied. The interest rate credit for prepayments shall be based on market interest rates that will change periodically, and will be calculated by the Company.
2. Monthly rates for all services covered by a single Letter of Election must be prepaid. Monthly rates must be prepaid for services added subsequently and placed on the same Letter of Election (i.e., customer-elected coterminous option) with a prepaid service.
3. Customers who change the length of a prepaid payment period will be credited any unused portion of the prepayment, subject to termination charges as specified preceding and/or in the Tariff for the contracted service.
4. Customers who prematurely disconnect will have termination or cancellation charges deducted from the prepaid amount and any balance credited to their account.

Federal Universal Service Charge Increase

The Federal Communications Commission (FCC) recently announced an increase in the factor that determines how much BellSouth contributes to the federal universal service funds. These funds are designed to help keep telephone rates affordable and to expand telephone services to schools and rural areas. You will see a corresponding increase in the Federal Universal Service monthly charge that recovers this increased payment by BellSouth. The increase will be effective January 1, 2003 and will be reflected on January or February 2003 bills. This charge will not be applied to Lifeline accounts.
